AUSTRIA SHEDS TEARS
OVER CZERNOWITZ

Loss of Bukowina Capital a
Sad Blow to Them—Fugitives Reach Vienna

London, June 22.—Russians are chasing a disorganized Austrian army along the Rumanian frontier, having broken a heavy counter-offensive of the Austrians, assisted by the Germans, in the Lutsik region. Russian semi-official reports that the Austrian General Pflanzer's army has been cut in two and is in precipitate retreat seem to be borne out by the Russian official statement that the Russians have occupied three towns on the Sereth river, and the admission in the Austrian communication that Russian troops have crossed the Sereth and occupied the towns of Zadova, Stroginetz and Gliboka. When the Austrians retired from Czernowitz part of them retreating due south along the Rumanian border and others toward the Carpathians, their hope was to have time to hold the Russians on the fortified line running from Kut to Sereth along the rivers Mikhodra and Sereth. But despite the delay caused by the prolonged defense of Czernowitz, General Letichsky threw his reserves upon the heels of the retreating Austrians at such speed that he succeeded in reaching that line simultaneously with them. The result was that General Pflanzer's force was cut in half midway between Kut and Sereth at Stroginetz. The Austrians and Germans have sent reinforcements to the southwestern front from the Italian, French and Balkan war zones, as well as from the Pinsk and Baranovich regions. The Germans arrived too late at the Lutsik front to relieve the Austrians. General Kaledines is pressing westward to the south of Vladimir-Volynski with the intention of cutting his opponents' communications between Kovel and Lemberg. His advance, if maintained, would enable him to block this line at a point between Vladimir-Volynski and Sokol. Moreover, the extension southward of General Kaledines' 80-mile front promises a junction with the army operating in the direction of Lemberg from the region of Brody.

The War Office Announces They Were Taken in Russian Offensive Up to Thursday of Last Week.

Petrograd, via London, June 22.—The war office announced yesterday that the number of men captured by the Russians in the offensive in Vilhynia and Galicia up to Thursday of last week was 172,484.

RUSHES MEN TO CHECK RUSSIANS

Kaiser Hopes to Save Lemberg from a Terrific Smash—Austrians in Counter Attack.

London, June 22.—Six German divisions—120,000 men—have been hurried eastward to check the Russian offensive bearing down upon Lemberg. Geneva dispatches reported yesterday.

Two German divisions are en route to the Lutsik-Kovel front. The Austrians, supported by German troops, are counter-attacking with great vigor on this northern flank of Gen. Brusilov's armies, and appear to have checked, temporarily at least, the Russian advance.

Four German divisions are being rushed into action on the 30-mile front from Brody southward to a point east of Przemyshlan. The Russians have opened a heavy artillery attack on this line, evidently in preparation for a hard smash toward Lemberg.

Dispatches from Berlin and Vienna yesterday admitted that the Austrian right wing, under Gen. Pflanzer, continues a rapid retreat before the Russians in Bukowina. The terrible force of the Russian artillery fire is causing Pflanzer to retire rather than sacrifice his men, Vienna reported, but it is expected that he will shortly make a stand against the Russians.

Mother won't let me have anything but Adams Chiclets. She says they're white like snow, and pure. I think the candy part is just grand. And then, when the candy's all melted away in my mouth, I just can chew that gum all I want. Mother somehow or other always seems to have a box handy in the house.
